2.6.2: Attainment of POs and COs are evaluated.

Specific learning outcomes for different courses are built into the curriculum of each discipline and are available on the college website. The evaluation done by the institution for achievement of program outcomes, program-specific outcomes and curriculum outcomes is done in the following ways.

1. Throughout the year the faculty records the performance of each student on the outcome of each programme. Remedial coaching is also provided to slow learners to keep pace with the desired progress. Average Achievement in the Assessment Process Students are assessed under the University Examination for 75 per cent of the total marks and the Institute as internal assessment for 25 per cent of the marks.
2. Feedback assessment – The institute collects feedback from students, alumni and teachers which is an important means of measuring achievement with the objectives of identifying the achievement level of students in the context of programme, subject, curriculum and curriculum outcomes and understanding the impact of teaching. There is a way.
3. Learning Process: Assignments- Students are also given assignments. Evaluation of the copy quality of work is finalised in the stipulated time. Final Semester/Annual Examination, at the end of every semester/annual, the University conducts the examination and the course outcomes are measured based on the results published by the University. The outcome of the program is measured by the final semester results published by the university.
4. Extra-curricular activities- Participation of students in extra-curricular activities like cultural activities, sports, NSS etc. Their performance in and outside the college in various extracurricular programs provides another expression of the program's outcomes.
