6.2.2: Institution implements e-governance in its operations:

1- IFMS System: The Integrated Financial Management System (IFMS) is a cutting-edge web-based financial management platform implemented across the state government, covering budgeting, accounting, treasury management, and reporting. Utilized heads of departments, and Drawing and Disbursing Officers, it facilitates online government bill processing and receipt management. IFMS significantly enhances transparency, efficiency, and cost-effectiveness by automating manual processes and eliminating paper-based transactions.

3- E-AAKLAN- MONTHLY RECORD OF COLLEGE EXPENDITURE

Planning for development in Uttarakhand is meaningless unless it takes into account intra-state variations in the level, potential and problems of development of different regions. For ensuring optimal use of available resources it is essential to formulate the State Plan through a series of interactive & multi-level exercises and integrating it with regional, district and block level strategies. From the operational point of view, a plan is a compilation of inter-related programmes/ projects/ schemes aimed at yielding the desired results through spatial convergence and appropriate temporal sequencing.
