## 7.1.2. The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures
2. Management of the various types of degradable and nondegradable waste
3. Water conservation
4. Green campus initiatives
5. Disabled-friendly, barrier-free environment

### 1- The Institution has facilities for Alternate sources of energy and energy conservation measures are :

- Most of the classrooms are well-ventilated and allow broad daylight without a need for any artificial lighting.
- All the lights in the classrooms have been replaced with LED tube light sets.
- Lights and fans are switched off after completion of the classes so that the use of electricity can be minimized.
- All computers located in the Principal's office, library and different sections of the college office, along with Computer have LCD monitors. It helps in the conservation of electricity.
- In most of the rooms and offices, new wiring works have been taken in the place of old wiring to minimize transmission loss.
- Every evening, the watchman will go around the college to verify whether all the lights and fans have been switched off or not.

## LED BULBS

## LCD Monitor

## 2- Management of Various types of degradable and non-degradable waste:

Solid waste generated on the college campus includes garbage, paper, plastic, textiles, glass utensils, food and hygiene products. To avoid this unhealthy environment and promote a healthy environment in the college campus, our Eco Club organization has been carrying out waste management in the college campus. Dry and wet waste are stored in separate organic and non-organic dustbins. And it is disposed of.

### 3- Water Conservation:

Rainwater harvesting work has been done successfully for many years in the college. This pond is a very suitable storage system to save rainwater every year. The pond has been connected to every part of the institution in different ways. To conserve every drop of water, separate pits have been constructed which provide the main source of groundwater. It is being used in the college.

## 4- Green campus initiatives

## 5- Disability-friendly, barrier-free environment

Classes for physically handicapped students are conducted on the ground floor of the college. Some major rules have been implemented-

- In any case, they will be provided special help and care.
- Physically handicapped students will be provided books on the ground floor only
- Necessary assistance will be provided to meet the needs of physically handicapped persons.
- Disabled friendly paths and ramps have been constructed.
